

Methods - In the Field, 7.5 hp

Methods - Analysis, 7.5 credits

Forskarutbildningskurs

7FTEM08

Institutionen för Tema

Gäller från: Andra halvår 2023

Fastställd av
Forskarutbildningsnämnden

Fastställandedatum
2023-12-14

Diarienummer
TEMA-2023-00354

Behörighetskrav

Grundläggande behörighet till kurser på forskarutbildningsnivå har den som har

- avlagt en examen på avancerad nivå,
- fullgjort kursfordringar om minst 240 högskolepoäng (hp), varav minst 60 hp på avancerad nivå, eller
- på något annat sätt förvärvat motsvarande kunskaper.

Lärandemål

The course is an introduction to several key qualitative methods in generating empirical material. The participants will familiarize themselves theoretically with a selection of qualitative methods and will apply them through practical exercises. The course is designed to provide ample opportunities for reflection and discussion of perspectives, theories and methods in qualitative research.

On completion of the course, the PhD candidate will be able to:

- describe and discuss key qualitative empirical methods;
- assess and review a variation of qualitative empirical research methods in their own and others' work; and
- evaluate strengths and weaknesses of these methods.

Kursinnehåll

The course is an introduction to several key qualitative methods in generating empirical material. The participants will familiarize themselves theoretically with a selection of qualitative methods and will apply them through practical exercises. The course is designed to provide ample opportunities for reflection and discussion of perspectives, theories and methods in qualitative research.

On completion of the course, the PhD candidate will be able to:

- describe and discuss key qualitative empirical methods;
